

# Addition and Subtraction

# Year 2 Subtraction Contents

Subtracting two-digit numbers and tens (not crossing 100)

A large, solid purple circle containing the text "Introduction".

*Introduction*

A large, solid yellow circle containing the text "Starter Activity".

*Starter  
Activity*

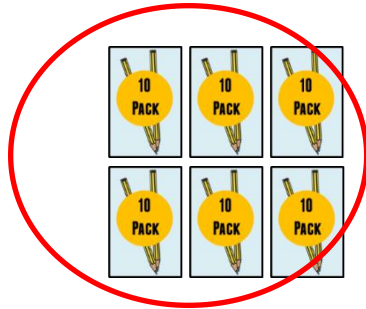

LO: subtract two-digit numbers and tens

**Success Criteria:**

- apply knowledge of number bonds to 10 from tens
- subtract tens
- retain ones

191	192	193	194	195	196	197	198	199	200

Click for answer.

$$80 - 60 = 20$$

This is subtraction by counting **on** (difference):  
60 count on 20 equals 80, so  $80 - 60 = 20$   
(the difference between 80 and 60 equals 20).  
Use when the numbers are closer.

Subtraction by taking away:

$$60 - 10 = 50$$

Subtraction by counting on:

$$60 - 50 = 10$$
