

Opera House

[twinkl.com/imagine/music](https://www.twinkl.com/imagine/music)

Think

Is this a boat or a building? How do you know?

Challenge

If I bought 5 seats at the Opera House, each costing £10, how much would I have spent?

It appears that 2 of the seats are only £8. How much have I spent now?

Opera House Answers

If I bought 5 seats at the Opera House, each costing £10, how much would I have spent?

Children can use multiplication knowledge or repeated addition:

$$5 \times £10 = £50$$

or

$$£10 + £10 + £10 + £10 + £10 = £50$$

It appears that 2 of the seats are only £8. How much have I spent now?

$$£8 + £8 + £10 + £10 + £10 = £46$$
