

## Busy Learning Time- Thursday 25<sup>th</sup> June

Can you choose 3 activities to do?

Create your very own 'shape monster' using 2D Shapes!  
What kinds of shapes can you spot and name?

Using lego or building blocks, can you make your own 'repeating pattern'? (Such as red, blue, red, blue, red, blue)  
How long can you make it?

Learn some new tricky words using these 'tricky words' songs! Can you practice writing them in different colours?

<https://safeYouTube.net/w/MOpL>

What do you want to be when you grow up? What are your *aspirations*? (Ask a grown up about this big word.) Draw or paint a picture of yourself doing this job and label it to tell people what it is.

See how many times you can climb up and down the stairs without stopping. What happens to your body after? Think about your breathing and what your heart might be doing.

Get 2 or 3 stuffed toys and a group of objects - can you practice 'sharing' these out just like we have been doing in Maths?

Create a 'muddy potion' outside using water and natural resources!  
Remember to tell an adult the recipe.

Using containers from around the kitchen, mark them with masking tape and see if your child can fill to the line! This should help them practice pouring carefully, and also encourage discussion about capacity! (full, half full, empty)

Using some tin cans, create and decorate your own spectacular plant pot!
