

How Honey Is Made

Amazing Fact

Honey found in the tombs of Egyptian pharaohs has been tasted by archaeologists and found to be edible. If stored properly in a sealed jar, there is no reason why honey could not last forever.

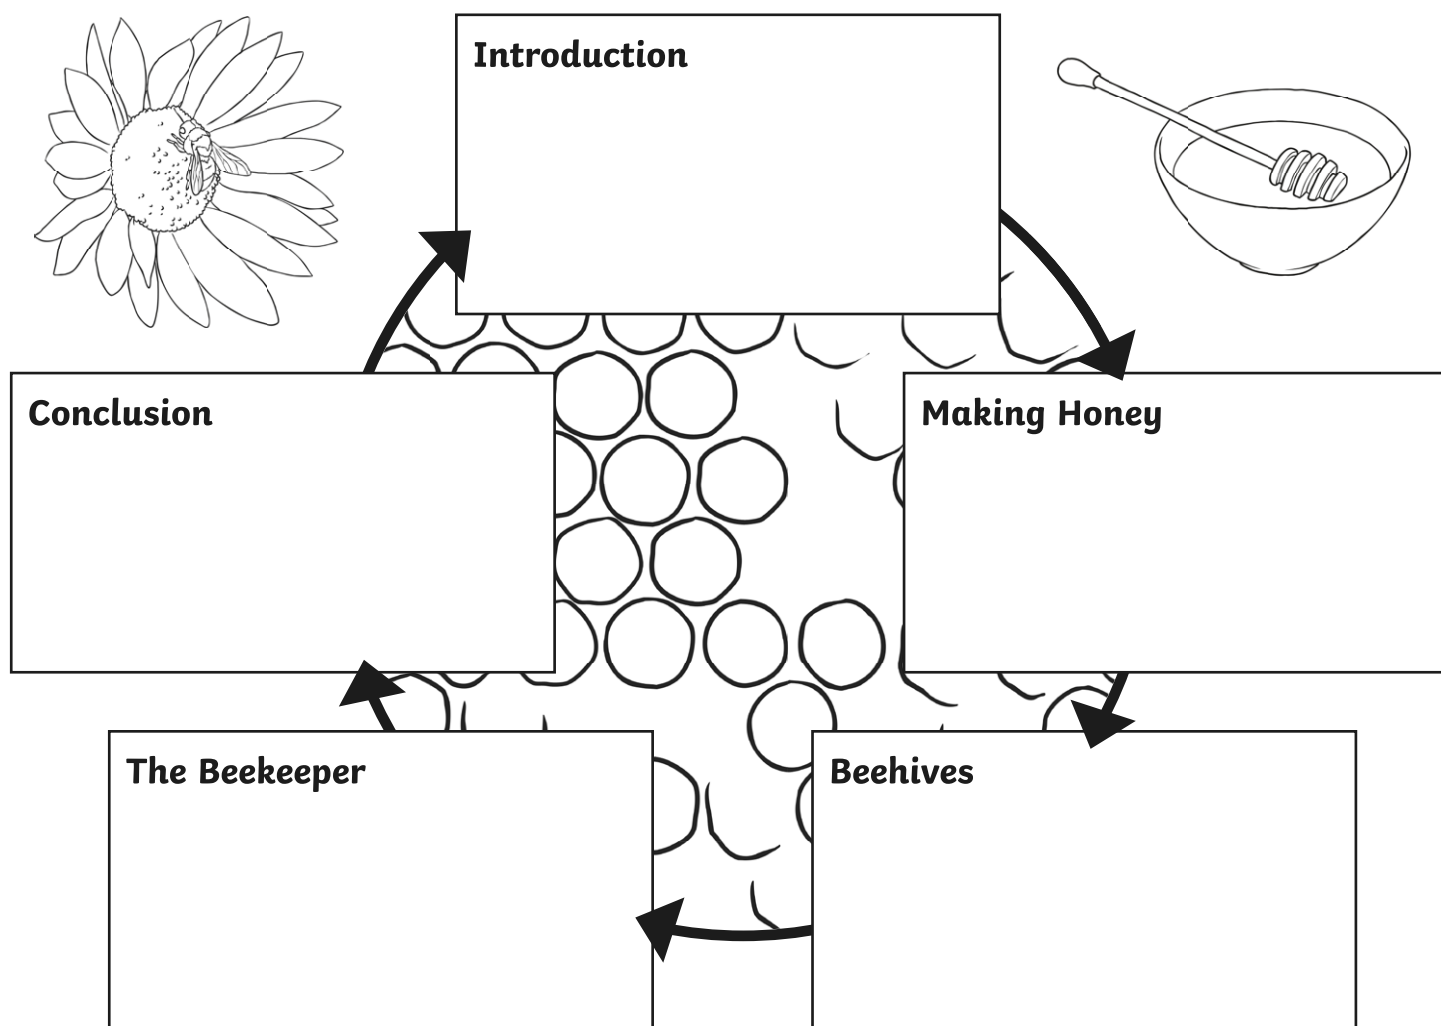

Challenge

Find out how honey is made and record your findings in the flow chart below.

Where does the process begin?

Where does the process finish?

What people, animals and equipment are required?

You could also try to find out:

- what makes honey so special;
- which other foods from history have been sampled without ill effects;
- how honey is made;
- which drinks have been kept unopened for the longest.
