

Counter race! (2 players)

Equipment needed

- Dice (1 – 6)
- Number track (1 – 20)
- 1 counter

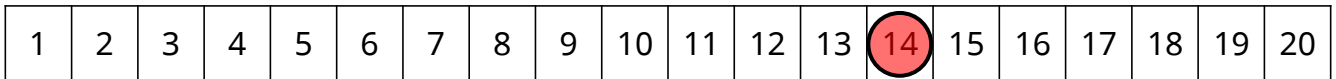

Instructions

The aim of the game is for player 1 to get to 20 on the number track and for player 2 to get to 1 on the number track.

1. Place the counter on 10 on the number track.
2. Player 1 rolls the dice and moves the counter **forwards** based on what is shown. Say the numbers out loud as the counter moves forwards.

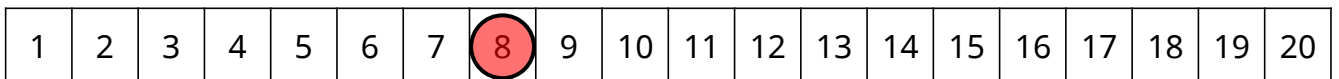

11, 12, 13, 14

3. Player 2 rolls the dice and moves the same counter **backwards** based on what is shown. Say the numbers out loud as the counter moves backwards.

13, 12, 11, 10, 9, 8

The winner is the first player to reach their target number (20 or 1) by counting on or counting back. The counter must land **exactly** on the target number for either player to win.

Counter race! (2 players)
