

Race to 20 (2+ players)

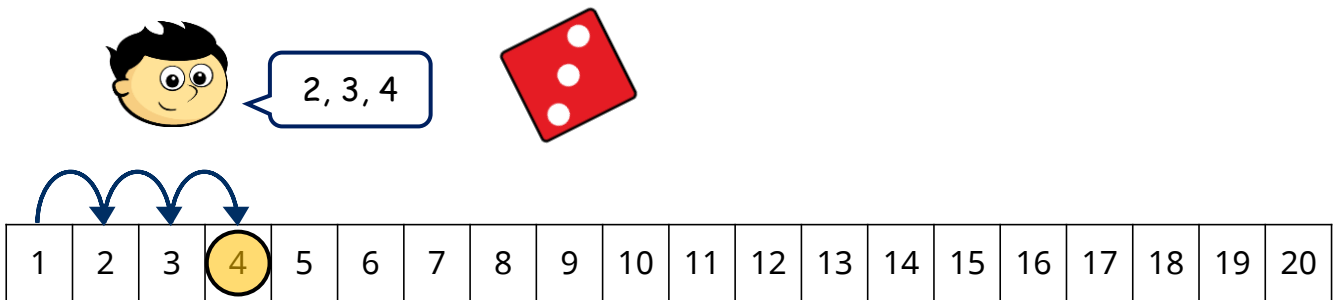

Equipment needed

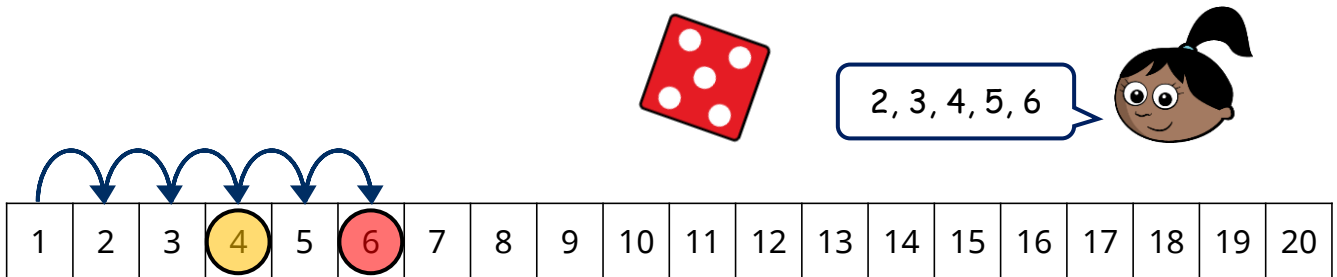

- Dice (1 – 3)
- Number tracks (1 – 20)
- Counters

Instructions

1. Both players place their counter on 1 on the number track.
2. Player 1 rolls the dice and moves the counter forwards based on what is shown. Say the numbers out loud as the counter moves forwards.

3. Player 2 repeats.

The winner is the first player to reach 20 by counting on. The counter must land **exactly** on 20 for either player to win. If the number rolled is greater than the number of jumps needed, the player must wait for their next turn to roll again!
