

Number line jump (2+ children)

Equipment needed

If drawn...

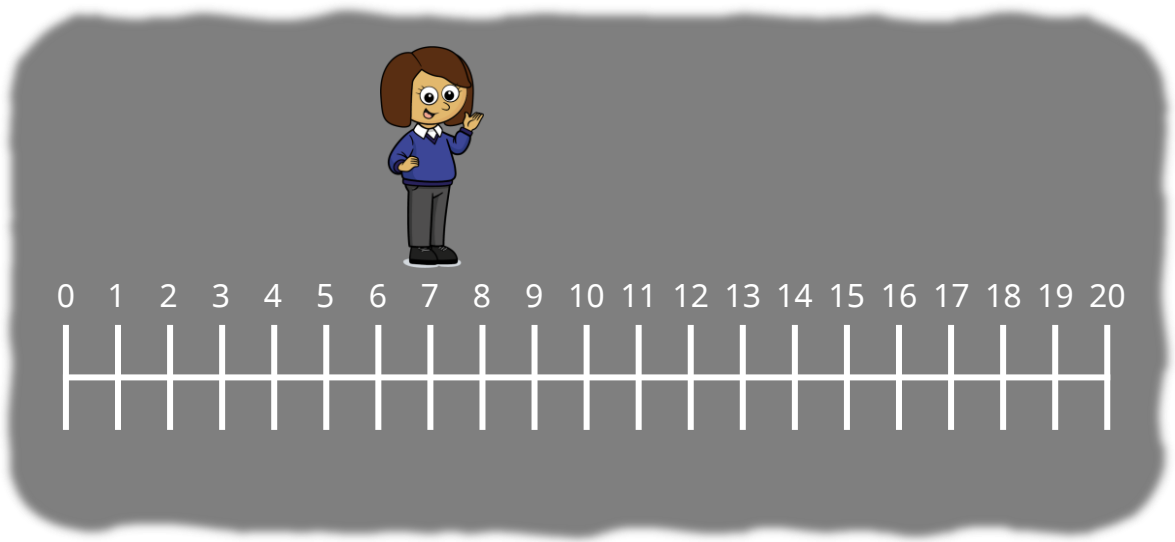

- Chalk

If shown...

- Rope or string
- Number cards (1 – 20)

Instructions

1. Show or draw a large number line from 0 – 20 on the playground.

2. Start at 7 and jump to 15, one interval at a time. Can you identify which numbers you will jump on?
3. Explore jumping on or jumping back between different start and end points on the number line. Which numbers will you jump on each time?

Let's investigate further...

- Can you find 1 more and 1 less of a number on the number line?
- Can you find all the numbers that are greater than ___?
- Can you find all the numbers that are less than ___?
- Can you find all the numbers in between ___ and ___?
